Take the next step in your civil engineering career
Become a Board Certified Diplomate Professional Engineer
ACOPNE was founded by practicing civil engineers who were members of ASCE’s COPRI to improve the practice, elevate the standards, and advance the profession of engineers practicing in Coastal, Ocean, Port, and Navigation Engineering.
Mission Statement

Provide specialty board certification of excellence in Coastal, Ocean, Port, and Navigation Engineering, elevate professional standards (levels of quality and performance), and better serve society.
Why provide Board Certifications?

- Promote excellence
- Promote leadership
- Promote ethical practice
- Advocate life-long learning
- Raise the bar
Why Become a Diplomate?

- ACOPNE Diplomate Board Certification recognizes you as an expert leader in the profession.
- Validates your knowledge, expertise and contributions to the coastal, ocean, port and navigation engineering discipline.
- Distinguishes your professional career and will advance your career further.
- Gives you recognition as one of the very select professional among your peers.
Why Become a Diplomate?

• Gives clients, employers, peers, and the public the trust and confidence in your expertise and skills.

• Demonstrates your commitment to high ethical and professional standards.
